Print quality:	<input type="text"/>	Ink brand:	<input type="text"/>
Calibration white point:	<input type="text"/>	Viewing light:	<input type="text"/>
Profile name:	<input type="text"/>		

## DISCLAIMER and WARRANTY:

The marc-en-ciel profiling service is intended as an affordable alternative to avoid purchase of advanced equipment and software.

The service does not replace the need to follow a training in color management, please ask for more information if you would like to participate in a brief training in color management.

Our responsibility is limited to controllable color management insofar as the testcharts were properly supplied and the profiles are correctly applied, since we have no control over the total workflow from the user.

We can give no guarantee for black-and-white profiles, because certain paper and ink combinations cause a non-measurable discoloration under certain light sources (metamerism)

If you are dissatisfied with your profile the integral sums paid are refunded without discussion and without further justification, provided that you have followed closely our specified method.

Do you have any questions or comments? Please contact us on the contactpage of the website [www.marc-en-ciel.be](http://www.marc-en-ciel.be)
